Shop in Style thanks to 4m

Specialist Flooring contractor 4m Flooring uk Ltd was called in to deliver a stylish, high quality floor at High Cross Shopping Centre in Leicester.

Our expert retail team installed over 2,000 square meters of a high performance, appealing insitu terrazzo finish in dark grey to the walkways, link bridges, stair flights and lobbies at the newly built shopping complex.

The work was undertaken in various stages while the centre was under construction.

Andrew James, Director at 4m said "The finish of the floor is eye catching and compliments the overall look of the shopping centre."

"The terrazzo product used was chosen for its durability, modern appearance and its ease of cleaning and maintenance."

"Shoppers are guaranteed an enjoyable experience underfoot when visiting the complex."
