

## Superfos (Tamworth) Ltd

**BIF Services Ltd have recently completed a major refurbishment for a pharmaceuticals packaging company in Tamworth.**

Employed as a specialist contractor by Clegg Food Projects, 2385m<sup>2</sup> of screed finish was completed within 10 days to provide a slip resistant, hygienic and durable working surface.

The system selected by the client was an epoxy based grip system at a nominal 3mm thickness, classified as a FeRFA Type 6 screed.

Mr Tim Walker, Project Manager for Clegg Food Projects commented that *"BIF Services had completed the work to a high standard, within the tight site program and within cost parameters"*, adding, *"We would not hesitate in allowing them further opportunities to work with our company."*

Since completion BIF Services have worked directly with the client on additional works, with a further phase planned.
