

THE INNOVATORS IN SURFACE PREPARATION

BLASTRAC wins innovation award at the World of Concrete in Las Vegas

Blastrac has been given the 'Construction Equipment top 100' award for the BLASTRAC BMR-85D multitask rider at the World of Concrete exhibition held in Las Vegas during February.

This international exhibition attracts every year around 80,000 visitors from all over the world and is one of the world's biggest exhibitions for concrete treatment. Every year the organization makes a selection of hundred most innovative products. From this selection editors from professional floor magazines, choose the most innovative product for the year.

Blastrac is honoured that editors from professional floor magazines have chosen the BLASTRAC BMR-85D as the most innovative product of 2008.

Building on its original and innovative all in one dust free shot blast system, Blastrac UK has seen new collaboration in 2009 with industry involving government backed projects bearing testament to the fact that Blastrac are now considered at the forefront of new floor preparation technology.

Blastrac are continually evolving and developing new products and working closely with customers to bring the very latest in 'must have' consumables. These include our new range of quick release 'Diamag' wings soon to be released to fit all brands of triple headed grinders. These wings can be fitted by hand and do not necessitate the use of hammers or other tools.
