

### Flowcrete In a Spin at Studio 99 Fitness Centre

• Product: Peran SL • Market Sector: Leisure • Location: Estonia • Client: Studi 99 Fitness Centre  
• Date: 2006

Flowcrete has provided its colourful smooth flooring solution, Peran SL, in a striking sky blue shade for a boutique Fitness Centre, Studio 99, located in the heart of Tallinn, Estonia.

50m<sup>2</sup> of the self-smoothing epoxy resin floor topping was laid in the gym's Spinning Room, and plays hosts to hundred of gym-goers each year who are keen to improve their general fitness and wellbeing.

Peran SL is an attractive and colourful flooring system with a smooth glossy finish. Available in a decorative range of bold and innovative colours, Peran SL is ideal for modern commercial environments looking for high-impact flooring.

Easily-cleaned and sterilised, Peran SL's joint-free finish eliminates the build up of dust and dirt ensuring that the floor continues to look good underfoot without requiring extensive maintenance.

Combining good looks with excellent durability, Peran SL is also extremely tough and wear resistant and is well suited to environments subject to high volumes of foot traffic on a daily basis.
