

THE IRL GROUP

SMOOTH PARKING AT BIRMINGHAM AIRPORT FROM IRL GROUP

Working for Vinci Construction (UK), IRL Group Ltd has installed a new car park decking system to a multi storey car park at Birmingham International Airport. Following mechanical preparation, any defects were identified and repaired, with new joints being formed.

To complete the works, Sikafloor 350N elastomeric decking system was installed to the top deck, with new walkways and car parking bays being created.
