

IRL REPAIRS FIRE DAMAGE FOR SHEEPBRIDGE COMMERCIALS

Following recent fire damage at Sheepbridge Commercials in Chesterfield, IRL Group was awarded the Contract for the refurbishment works. The project comprised of preparation by a suitable combination of dust free vacuum shot blasting and diamond grinding all dust and debris was contained in sealed extraction equipment. The defective areas of concrete substrate were made good using a Resin Bonded Repair Mortar.

The completed floor areas and pits were treated with a non-slip solvent free epoxy resin finish. Hazard Warning banding was applied following completion of the main floor works.

The contract was carried out over the Christmas period and completed within the scheduled timescale to a very high standard, ready to re-open again in the New Year.
