

Decorative Quartz shines at London Gym

Architects and designers of a new Central-London gym decided on a decorative, anti-slip resin flooring system that would provide all the functional properties of an industrial floor, but with some added glitz and glamour! Our Uragard Decorative Quartz system was chosen in a striking pale blue and white finish, 'Sky'.

Covering approximately 250m<sup>2</sup>, the area included Changing facilities and a communal shower room and Spa with Steam, Sauna and Jacuzzi.
