## Remmers in Police Custody

### Short Story:-

Tornado Management Limited, have recently completed the application of high performance Remmers specialist floor and wall coatings, to the custody areas of Chadderton Police Station in Oldham, for the GMPA

The floors were screeded with Remmers Floormix epoxy flooring system, to give a smooth dense, 'pick proof' and easily cleaned, hygienic surface, which was covered in a seamless connection to the high gloss and equally easily cleaned and 'pick-proof' Remmers BS 3000 epoxy wall coating system. ## Remmers in Police Custody

### Full Story:-

Tornado Management Limited, have recently completed the application of high performance specialist floor and wall coatings, to the custody areas of Chadderton Police Station in Oldham, for the Greater Manchester Police Authority.

The floors were screeded with Remmers Floormix epoxy flooring system, to give a smooth dense, 'pick proof' and easily cleaned, hygienic surface, which was laid to falls out from the cells to gullies in the corridors. It was coved at the wall junctions with the same material, producing a seamless connection to the high gloss and equally easily cleaned and 'pick-proof' Remmers epoxy wall coating system, which was made using Remmers BS 2000 and 3000 coloured epoxy resins.

The strict and detailed design specifications and requirements were produced by consultants McBains Cooper and the main contractor for the project, Laing O'Rourke, as part of their framework agreement.

This latest project brings the total number of cells built or upgraded by Tornado with these advanced Remmers systems to more than 200 at 11 police stations for the GMPA. (169 words)
