

# PRESS RELEASE

## DUNDRUM DUBLIN

### 'BEST LOOKING CAR PARK IN THE WORLD'

The car parks at the new prestige Dundrum Shopping Centre in Dublin, have been comprehensively protected with Remmers flooring and coating systems. The quality and visual appearance of the Remmers finishes have made a major contribution to the development being acclaimed as having "The Best Looking Car Park in the World".

The Client and their Architects, Burke-Kennedy Doyle, selected Remmers' high performance systems for more than 110,000 square metres of intermediate decks, and more than 140,000 square metres of exposed concrete walls and soffits. Remmers also supplied additional specialist materials to seal movement joints, protect asphalt surfaces in the disabled reception area, and to provide effective anti-graffiti treatment to the decorative external renders. Specialist Contractor Lynch and Manning applied the Remmers systems.
