

KAREN MILLEN FASHION FLOORS FROM REMMERS

Specialist contractors, Coverdale Specialist Contracting, have now completed refurbishing the floors in several Karen Millen Fashion Stores with Remmers' systems - the latest being at Hampstead in London.

Karen Millen executives required a modern, light reflective floor finish that would be durable under the small wheeled abrasion of clothing rails, and the high heeled foot traffic of their upmarket clientele.

Coverdale were able to provide just such a solution, using the Acolan Stone Carpet System, which consists of Viscacid Construction Resin as a primer and binder for millions of coloured pebbles, to give a finish to meet the clients' demanding specification.
