

PRESS RELEASE

LUXURIOUS NATURAL SPA 1877 WITH REMMERS FLOORING

Short Story:

The old Turkish Baths in Victoria Street, Sheffield, were being refurbished and converted into a prestige Health and Beauty Spa.

The owners needed a durable, non-slip and attractive, but easily cleaned floor, that had a 'natural' appearance to blend in seamlessly with their natural holistic design.

They selected the Remmers Stone Carpet system as being ideal - an epoxy resin based floor, incorporating natural stone pebble aggregates, applied by ACC Flooring of Brighouse, Yorkshire.

The Spa has now fully opened and the floors are "exactly what the therapist ordered".

Full Story:

The old Turkish Baths in Victoria Street, Sheffield, were being refurbished and converted into a prestige Health and Beauty Spa.

The owners decided to retain as much as possible of the historic building's appearance, and use high quality natural materials throughout the project.

They needed a new and durable, non-slip and attractive, but easily cleaned floor, that had a natural appearance to blend in seamlessly with their natural and holistic design.

They contacted ACC Flooring of Brighouse who understood their requirements and showed them the range of Remmers flooring samples. Immediately the Spa owners selected Remmers Stone Carpet system as being ideal - an epoxy resin based floor, incorporating natural stone pebble aggregates. This was able to meet all of their modern and hygienic, durability and performance needs, with the appearance and feel of their natural holistic design.

The Spa has now fully opened and the floors are "exactly what the therapist ordered".
