

Combe Haven holiday park

No battle, only peace at Hastings

The popular Combe Haven Holiday Park owned by Haven holidays is located near to Hastings in Sussex, the town associated with the famous battle. Today this historic and beautiful part of the English coast and Combe Haven Park itself are more associated with peaceful holidays than battles!

Haven Holidays is owned by the Bourne Leisure Group. They are the largest provider of domestic holidays with family holiday parks around the UK, priding themselves on having smart modern sites with attractive landscaping in safe, secure surroundings.

So when Haven needed a new pool complex, their architects HTA specified that contractors Entech use a specially formulated and visually attractive resin bound aggregate surface from Ronacrete to cover 280 square metres of the pool complex.

Ronadeck Resin Bound Surfacing is anti slip (essential around pool sides) and in keeping with Haven Holidays commitment to the highest standards of health and safety. The system also meets the demands of the SuDS sustainable urban drainage regulations, again

reflecting the philosophy of Haven Holidays whose dedication to the environment can be seen through the fact that all their parks hold awards for conservation.

The high standard of workmanship and satisfaction of the system they had chosen for the splash pool resulted in Bourne Leisure asking the contractors to lay a further 800 square metres to complete the sun deck.

Daren Chambers UK Sales and Marketing Manager for Ronacrete said:

“It was a pleasure to work on a project that you knew would be appreciated by so many. People spend all year saving for and looking forward to their holiday and Haven realise how important it is that their clients can enjoy pleasant well maintained surroundings. Haven Holidays and Ronacrete have a similar approach to customer satisfaction; we are well established firms with over 40 years’ experience plus we have a
