

THE JAGUAR ARENA – RICOH STADIUM

The Jaguar Arena at the Ricoh Stadium in Coventry is a leading venue for concerts and exhibitions in the Midlands area and when they needed a new floor that was attractive and hardwearing they approached Zenith Pola Flooring Services

Zenith Pola Flooring Services carried out the works from initial site survey to completion using pump applied rapid set screed finished with an anti-slip epoxy resin coating. The work covered 6000 square metres and was undertaken in phases with no disruption to the venues programme.

*PUMP SCREED SYSTEMS
FOR COMMERCIAL OR
INDUSTRIAL APPLICATIONS*

Terry Bates the Estates Manager said
“Zenith Pola Flooring carried out the
work on time and to an exacting
specification, we now have a floor that
is attracting extra business to this
already prestigious venue”.

Zenith Pola Flooring is a Resin Flooring Specialist providing solutions to a wide range of commercial and industrial flooring requirements.
