

PRESS RELEASE

Apprentices learn about preparing for the perfect finish

The 16th group of resin flooring apprentices continued their training this month with a two-day session on Surface Preparation. Starting with the essential techniques of proper floor preparation, with a combination of classroom teaching and practical experience the trainees learnt the various methods of surface preparation and the choice of equipment available.

The Preparation Group's provided its custom-built facility at Lincoln for the training and Stephen Walker, who ran the two day sessions, gave the apprentices plenty of opportunity to try a range of machines.

This group has now completed the first ten modules of their two year apprenticeship and will continue their training with further combined classroom and practical sessions on Coatings, Self smoothing, Screeds & Covings and Flowable Screeds.

Apprentices in Resin group 16 are pictures here with Stephen Walker (second from right):

Daniel McLaughlin and Jordan Speed (4m Floors UK)
Matthew Marvin (Central Flooring) Danny Malone
(Coatech Ltd) Jack Findlay (Genco Construction) and
Adam Moore, Jason Earl & Jake Ross (IRL Group Ltd)

The FeRFA website has comprehensive information on training and grants, including the apprenticeship schemes for In Situ Resin flooring, Surface Preparation and Screeding. FeRFA also offers Upskilling courses (tutor-delivered and on-line). Visit www.ferfa.org.uk to find out more.
