

CATALOGUE OF FERFA ASSOCIATE MEMBERS

The companies listed in this brochure are all Associate members of FeRFA, providing specialist services and products into the resin flooring and surface preparation industry.

The listings have been divided into the following broad sectors to aid selection of the services or products required.

Construction Products: Materials	Apollo Construction Solutions Boud Minerals Ltd Brett Specialized Aggregates Degafloor Derbyshire Aggregates EPMS Supplies Ltd Geveko Markings Huntsman Polyurethanes (UK) Ltd Innoveo Ltd Long Rake Spar Ltd Natural Paving Products (UK) Ltd NCC (North West) SureSet UK Ltd The Resin Mill
Floor Accessories and Joints	ACO Building Drainage Component Developments Dural UK Schluter Systems Ltd
Packaging	Protech Plastics Containers
PPE & Consumables	VI Distribution
Surface Preparation & Other Equipment	Blastrac UK Husqvarna Construction Products HTC Floor Systems Ltd Multi-Hire Power Tools Ltd
Testing Equipment & Services	Campden BRI Leatherhead Food Research Oceans ESU Ltd Tramex Ltd
Waste Management	Reconomy

FeRFA's website has comprehensive information on all aspect of resin flooring, including technical documents and publications, membership, training schemes case studies and a gallery, as well as a searchable database of all FeRFA members including contractors and manufacturers.

CONSTRUCTION PRODUCTS: MATERIALS

APOLLO CONSTRUCTION SOLUTIONS

an Apollo Chemicals Company
Sandyway, Amington Industrial Estate, Tamworth, Staffordshire DY2 7DJ

01827 54281

www.apolloconstructionsolutions.co.uk

COMPANY PROFILE

For over 20 years, internationally recognised construction companies have been trusting Apollo Construction Solutions to manufacture and supply high performance resins, adhesives, sealants and refurb products.

During this time, it has worked with many decorative surfacing companies to ensure that they can offer beautiful hardwearing permeable solutions compliant with SUDs regulations, along with easy-to-use resin repair and restore products.

Apollo's focus is on innovation, relationship building and staying ahead of market requirements. This allows it to create quality products that solve real-end user issues, whilst providing added-value services, including compliance, technical, logistics and marketing support.

BOUD MINERALS LTD

West Bank, Sutton Bridge, Lincolnshire PE12 9QH

01406 351988

www.boud.com

COMPANY PROFILE

Boud Minerals is a second generation, family-run provider of functional, decorative and lightweight filler materials for a number of industry sectors and applications.

We also provide a number of integrated services consistent with the handling and provision of mineral products such as colour matching, technical coating, dry blending, screening, drying and packaging.

We take pride in our versatility, our flexibility and our absolute commitment to remain independent in our operations. Our philosophy is very much 'if it helps then we're likely to find a way to do it'.

This gives us the freedom to serve most any mineral or integrated service need; to research and develop techniques to improve performance across a range of substrates and to innovate where we feel there may be commercial benefit - for ourselves and for our customers

CONSTRUCTION PRODUCTS: MATERIALS

BRETT SPECIALIZED AGGREGATES

Sturry Quarry, Fordwich Road, Sturry,
Canterbury, Kent CT2 0BW
0845 608 0572
www.brettspecialisedaggregates.co.uk

COMPANY PROFILE

Brett has been supplying high performance, high-quality dried aggregates into a wide range of sectors for over 30 years. We manufacture bespoke dried products such as fine-sized aggregates, including market leading brands such as Durite Calcined Flint, Permwhite White Calcined Flint and Flintag, for use in flooring applications.

As part of the Brett Group a large percentage of our materials are sourced from Brett-owned quarries giving additional control throughout their supply chain. This gives us the freedom to serve most any mineral or integrated service need; to research and develop techniques to improve performance across a range of substrates and to innovate where we feel there may be commercial benefit - for ourselves and for our customers.

DEGAFLOOR LTD

Crusader House, High Street, Maxey, Peterborough,
Cambridgeshire PE6 9HQ
Tel: 01778 342545 www.degafloor.com

COMPANY PROFILE

Degafloor is one of the UK and Ireland's leading supplier of MMA (acrylic) resin flooring systems for industrial and commercial premises. The product range includes all types of resin flooring (FeRFA types 3 - 8), together with car park decking systems, seamless resin terrazzo, floor screeds and rapid curing concrete repair solutions.

The technically advanced resins are manufactured by Evonik Industries AG (formerly Degussa AG) and have been designed to specifically meet the challenges and requirements of today's discerning customers. The Röhm GmbH & Co. division of Evonik who supply the resins, have also developed other groundbreaking technologies such as PLEXIGLAS®, EUDRAGIT® drug coatings, and ROHACELL® CFC-free hard foam. These technologies are the result of continuous R&D (over 300 research chemists are currently employed by Evonik) and a business model that embraces innovation.

Product range is second to none, and its 24/7 approach to customer support, rapid response to technical enquiries and high quality, flexible approach to training has made Degafloor a firm favourite of many leading resin system installers. Please visit www.degafloor.com to find out more.

DERBYSHIRE AGGREGATES LTD

Arbor Low Works, Long Rake, Youlgrave,
Bakewell, Derbyshire DE45 1JS
01629 636500
www.derbyshireaggregates.com

derbyshire specialist
aggregates 

COMPANY PROFILE

Started in 1984 as a relatively small scale operation focused on discrete volumes to locally based merchants, Derbyshire Aggregates dynamic growth now finds itself as an industry leader, exporting products all over the world and contributing to a vast array of project types.

Dried aggregates are produced at its Youlgrave plant in Derbyshire, then washed, dry screened and packaged to exacting requirements. Available for immediate delivery off the shelf and throughout the UK and Ireland, Derbyshire Aggregates has a wide selection of natural coloured dried decorative minerals, including granite, quartz, basalt and bauxite. Colour coating is available if required. Many other high PSV materials can be custom processed to specific requirements. Deliveries can be made in bags, bulk bags, tankers and bulk tippers as required. Minerals are now sourced worldwide with custom processing at the Arbor Low manufacturing plant.

Technical liaison to deliver client requirements when and where required in the quantities to match demanding schedules are a feature of DA's operations and delivery service. A vast selection of products is in stock for immediate delivery and a large aggregate library is available to assist selection. Via its haulage network deliveries can be arranged 24 hours a day 7 days a week.

EPMS SUPPLIES LTD

Unit 1 The Moorings, Waterside Road,
Stourton, Leeds LS10 1R
0113 2760073
www.epms-supplies.co.uk

COMPANY PROFILE

Joining FeRFA as an Associate Member, EPMS Supplies Ltd was founded over 25 years ago and offers a bespoke service to the construction industry. Now operating nationally with distribution centres strategically placed, EPMS prides itself on its friendly reliable service, technical know-how and support services. This along with over 100,000 items held in stock makes them the trusted partner for building companies and contractors. EPMS works closely with only the major specialist manufacturers to provide leading brand products that offer the best cost effective solution to you the customer.

EPMS also offer a free of charge take off estimating service when requested and both on site and off technical support. All staff have excellent technical knowledge and vast practical experience. For back-up, EPMS has a long and established relationship with the major leading manufacturers.

GEVEKO MARKINGS

Gibbs Marsh Trading Estate, Stallbridge,

Dorset, DT10 2RY

01963 362640

www.geveko-markings.com

COMPANY PROFILE

Geveko Markings manufacture and supply road, line, decorative and skid resistant markings to markets around the world. Based in Dorset, UK Geveko is a leading manufacturer of decorative, resin surface systems. A beautiful, modern alternative to traditional paving products, resin surfacing has increased in popularity for use in both commercial and domestic areas. Geveko Markings are able to supply all the materials required to create stunning resin bound and bonded surfaces. Geveko's resin paving systems provide durable and attractive surfacing solutions that are cost-effective alternatives to other paving products and are ideal for use on: driveways, footpaths, patios, swimming pool surrounds and much more. Geveko Markings resin bound system is a combination of natural aggregates with a resin binder that creates a smooth, permeable surface that can be used for surfacing urban tree pits and used as part of sustainable drainage systems (SuDS). Geveko's bonded system is created by applying a thin layer of resin binder directly to an existing surface then scattering natural aggregate over the top, ideal for conservation and heritage areas.

HUNTSMAN POLYURETHANES (UK) LTD

PO Box 99, Wilton, Redcar TS10 4YA

01642 834700

www.huntsman.com

Enriching lives through innovation

COMPANY PROFILE

Huntsman is a global manufacturer and marketer of differentiated chemical products. The polyurethanes division is a leader in the delivery of MDI-based solutions for an extensive range of applications. Three world-scale MDI plants, produce over 500 different products for the appliance, adhesive, elastomer, automotive, composite wood, footwear, furniture and bedding, TPU and coating markets.

Coatings based on Huntsman's polyurethane technology include: paints that combine aesthetic properties with adhesive capabilities and durability; heavy duty protection systems for bridge and car park surfaces; and specialty protective finishes for metal and concrete, pipelines, truck bed liners industrial floor coatings.

The versatility of Huntsman's advanced MDI technology enables the manufacture of tough industrial floor coatings that provide long-term protection coupled with aesthetic, structural and safety functions. Depending on the application, they can be tough, matt or glossy. They can also be customized with specific properties tailored to meet the needs of environments as diverse as food processing factories, electronic production, chemical, power and car manufacture plants as well as general workshops, clean rooms and TV studios.

Huntsman's specialists have a deep understanding of polyurethane chemistry and through a policy of continuous innovation can offer the highest level of proactive support to formulators. Assistance available includes advice on the selection of chemical components as well as expert guidance on formulating, processing and handling. By offering a fast, responsive service based on direct communication and feedback, Huntsman's technical teams can help customers solve complex application challenges quickly, opening up a world of new formulating opportunities.

COMPONENT DEVELOPMENTS

Unit A, Halesfield 10, Telford, Shropshire TF7 4QP

01952 588 488

www.componentdevelopments.com

component developments

COMPANY PROFILE

Modern designed stainless steel drainage channel systems to promote essential hygienic, durable and aesthetic qualities.

Component Developments utilise modern manufacturing techniques, including latest design software, laser cutting and CNC bending, together with bright annealed (mirror polished) stainless steel, as the standard material for drainage channels.

These hygienic and durable surface finishes retard the growth of bacteria and are easy to clean to their original bright chrome-like finish. Our channel systems can be designed, manufactured and supplied to accept various loadings and flow rates, - from a normal wash down application in food processing factories, to heavy deluges from discharging equipment in commercial kitchens or process pipe work.

Comprehensive literature and technical advice are available on design, installation, and maintenance of all products including stainless steel drainage channels, gullies, access covers and kerb surface protection.

- Hygienic · Durable · Functional · Aesthetic · Drainage Channels
- Gullies · Access Covers · Kerbs · Surface Protection

SURFACE PREPARATION AND OTHER EQUIPMENT

BLASTRAC UK

Unit 2A, Outgang Lane, Dinnington, Sheffield, S25 3QY

01909 569118

www.blastrac.com

COMPANY PROFILE

Blastrac® systems are the preferred method for surface preparation, used by professional contractors and recommended by coating manufacturers for a wide range of applications.

We generate solutions for surface processing on every scale and for almost every area. Innovative techniques for processing surfaces are developed in-house, on-demand, through our strong R&D department.

Blastrac offers more surface preparation technologies and expertise than any other manufacturer – we not only develop our own products and techniques, we manufacture them in different facilities across Europe. As a result of the strong relationships we have established over the years with our suppliers, we are able to offer a full range of superior quality equipment to all our customers. Blastrac products are environmentally friendly and provide the most economic solutions to your surface preparation projects. With Blastrac machines, everything is possible - our experts are always on-hand to provide answers and solutions to any questions relating to specific surface preparation issues, and product demonstrations can be arranged on request.

A range of brochures, as well as digital data-sheets are available. There is also a comprehensive, user-friendly website including technical specifications, and the full product catalogue is available as an app [via this link](#) you can visit Blastrac on YouTube as well at <http://www.youtube.com/user/BlastracEU>

HTC FLOOR SYSTEMS LTD

Unit 4 Dunfermline Court, Kingston Business Park, Milton Keynes
MK10 0BY

0845 460 2500

www.htc-floorsystems.com

COMPANY PROFILE

For over 20 years HTC has been a world leader in the development of floor grinders and diamond tools for floors. HTC offers adaptable machines and tooling, with an extensive portfolio covering floor preparation and concrete/natural stone restoration & polishing. Our tools are suitable for anything; from very rough grinding equal to scarifying to high gloss polishing of natural stone, resin terrazzo or concrete.

HTC's machines and diamond tools grind and polish concrete floors to remove the surface paste and expose the stronger concrete beneath. They are suitable for anything; from very rough grinding equal to scarifying to high gloss polishing of natural stone or concrete. The result of this process is a stronger, more durable, shiny and beautiful floor. HTC Greyline™ consists of a complete range of machines, vacs and tools for floor preparation and renovation, concrete grinding, surface levelling and removal of floor coverings. The machines are powerful and sturdy with many technical details unique to HTC Greyline™. Ultra-fast change of specially designed diamond tools – HTC EZchange™.
