

Skip and container hire

Your waste
management experts

Nationwide support

Reconomy is the UK's leading provider of outsourced waste management services.

We coordinate around 12,000 waste movements every single week, managing approximately 3 million tonnes of waste each year.

Through our portfolio of regionally-based supply chain partners, we can fulfil all your skip and container needs anywhere in the UK. Instead of spending time dealing with numerous regional suppliers; Reconomy provides you with a single point of contact to manage your requirements across all of your sites and projects nationwide.

All of our supply chain partners have been pre-approved to ensure they deliver an efficient and reliable service, meeting all legislative requirements. We will also negotiate best possible prices on your behalf, so you can be confident that you're getting value for money.

We endeavour to recycle as much of your waste as possible, on average achieving 93% landfill diversion.

Hassle-free approach

Whatever type of construction project you're working on, our aim is to make waste disposal as simple and hassle-free as possible.

As a Reconomy customer, you will benefit from:

- Guaranteed safe transportation of your waste
- Next day delivery on most skips and containers (subject to availability)
- 7 days a week collections (subject to availability)
- Assurance that you are compliant with all relevant waste disposal legislation
- Emergency and rapid response callouts
- Access to our network of local service providers anywhere in the UK.

Should you require additional hands-on support, our team of Site Liaison Officers (SLOs) can guide you through the implementation of a best practice approach to on-site waste minimisation.

They can help you to improve on-site segregation, ensure skips and containers are fully utilised, maximise on-site material reuse and carry out toolbox talks to subcontractors and other personnel about the importance of waste reduction.

Diverse product range

Because every construction project is different, we offer a diverse range of skips and containers to meet your needs.

2 **2 yard / mini skip**
Holds 20-30 bin bags

4 **4 yard / midi skip**
Holds 30-40 bin bags

6-8 **6-8 yard / builders skip**
Holds 50-80 bin bags

10-16 **10-16 yard / large skip**
Holds 90-140 bin bags

 **25-30 yard roll-on, roll-off container**
Holds 100-150 bin bags

 **35-40 yard roll-on, roll-off container**
Holds 150-200 bin bags

Specialist skips and containers

We can arrange for the supply of specialist skips and containers for the disposal of specific waste streams, including:

Low-sided containers

For bulk removal of heavy materials, such as soil or demolition waste.

Enclosed skips

For heavy and bulky materials, inert materials from construction and demolition operations, dry non-hazardous waste and excavated soils.

Hazardous containers

For the safe disposal of materials such as asbestos, paints, solvents and batteries, as well as hospital or clinical waste.

Wait and load skips

For sites with limited access or where an on-the-road skip permit has been refused.

Caged vehicles

For fast waste collection, where storage or access issues may be problematic.
